Owner – H. Blight, Bendaree Park Stud, Appin, NSW.

TO WHOM IT MAY CONCERN

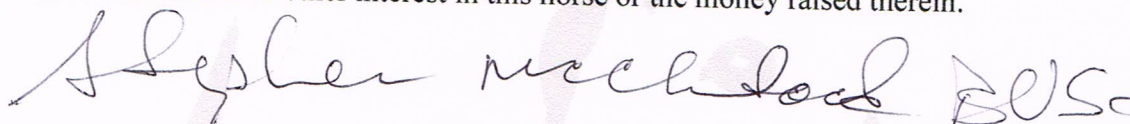

This is to certify that on June 4th, 2020, I examined this horse at Bendaree Park.

The filly was in good general health and condition with normal cardinal signs. There were no significant abnormalities on digital palpation of the joints, tendons and musculature. There was no pain response on hoof testers/percussion. The horse was free of lameness and ataxia when examined at the walk and trot on a lead. Auscultation of the heart and chest was within normal limits and the horse had a normal menace response. The eyes were grossly normal with a normal menace response.

Comment on the horse's conformation and specialised procedures (such as endoscopy, X-rays, ECG, etc) were not requested.

Within the scope of this examination I detected no abnormality that might preclude this horse from being insured for mortality and sold or syndicated as a prospective racehorse.

I have no financial or other interest in this horse or the money raised therein.
