

2nd June, 2020

VETERINARY REPORT “Miss Vixen”

Signalment: 5 Year Old Bay Thoroughbred Mare

On 2nd June, 2020 “**Miss Vixen**” was examined at Cranbourne, Victoria for the purpose of use as a broodmare.

Ultrasonographic per rectal examination found a normal reproductive tract including uterus and ovaries. The mare was not currently in oestrus. No abnormalities were detected.

In my opinion and within the limitations of the above-described examination “**Miss Vixen**” is suitable for use as a broodmare.

If I can be of any further assistance, please do not hesitate to contact me on 0412 501 999.
