Veterinary Report

Date: 4th November 2020.

Horse: I am Swerving

Signalment: 3yo Bay TB Gelding

DOB: 11/10/2017

Microchip: 985100012125967

Location: Bryan and Daniel Guy Racing Stables, Bundall, QLD

The above named horse underwent a resting endoscope assessment, a trot up and static flexion of his 4 limbs. This was requested by Bryan Guy. It was reported the horse raced and won the previous day.

Resting Endoscopy Findings

Grade 2 (Lane Scale) Larynx – All major movements, both adductory and abductory, were symmetrical. A transient asynchrony was evident at times, a full range of abduction was achieved.

Trot up

I am Swerving was seen to trot sound in a straight line on a hard surface. Static flexion of his joints was considered within normal limits.

If you have any further questions, please do not hesitate to contact me.

Sincerely

Dr Timothy R Hawthorne BVSc(Hons) BSc(Hons) CertAVP MRCVS
