## VETERINARY EXAMINATION

**Horse: Reflectivity**

**Location of Examination: Oak Ridge Farm, The Oaks, NSW**

**Date of examination: 7<sup>th</sup> January 2021**

A veterinary examination of the 6yo bay thoroughbred gelding **Reflectivity** (described below) was carried out at Oak Ridge Farm, Silverdale Road, The Oaks, NSW on the 7<sup>th</sup> January 2021. At the time of the examination the horse had been spelling since having last raced on the 5<sup>th</sup> December 2020.

### Clinical Examination:

The horse was presented in good clinical health. On clinical examination the horse has acceptable conformation and temperament. Auscultation of the heart and lungs did not reveal any abnormalities. The horse was examined at the walk and trot in hand, with no lameness detected. Palpation and manipulation of the distal limbs did not reveal any signs of significant injury or abnormal wear. Flexion tests of all four limbs were all normal, with no pain or lameness detected post flexion test.

### Endoscopic Examination:

An endoscopic examination of the upper respiratory tract was conducted at rest via both nostrils. The horse had normal Grade 2 (Lane) laryngeal movements, with a mild asymmetry noted at rest, but was able to achieve and maintain full abduction. There were no structural or functional abnormalities of the larynx, epiglottis, soft palate, or pharynx detected, and a clear trachea.

### Disclosure:

I certify that I have no current nor contemplate any future interest in the above horse or the monies to be raised from the sale of the horse.

Yours faithfully,

**Dr Ross Alexander BVS**
