25<sup>th</sup> May 2021

**Trainer:** Hawkes Racing

**Horse:** Ostracised

Ostracised, a 2 year-old Thoroughbred gelding underwent a clinical examination, endoscopic examination at rest, and a trot-up examination on the 25<sup>th</sup> May 2021. The gelding had raced the previous day. The gelding is in good health, and no abnormalities were detected on clinical examination. The gelding's upper airway is within normal limits at resting endoscopic examination (grade 1 larynx, normal shaped epiglottis). On trot-up, the gelding is within normal limits for a Thoroughbred racehorse.

In my opinion, the gelding is currently fit for purpose as a racehorse.

Please feel free to contact me if you have any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read 'Stuart Vallance'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.
