9th March 2022

VETERINARY REPORT FOR 'MALKOVICH (AUS) 2017'

Signalment:

4-Year-Old Bay Thoroughbred Stallion

Microchip:

985100012145366

Brands:

NSS: H P CONJOINED INSIDE CIRCLE UNDER ARROW

OSS: 11 OVER 7

'Malkovich' was examined at Bjorn Baker Racing at Warwick Farm on the 9th March 2022 at the request of Jean Dubois. Trot up and endoscopic examination of the upper airway at rest was requested.

No lameness was noted at the hand-led walk and trot in a straight line on a hard surface. Synthetic hoof filler was present on the medial and lateral aspect of both fore feet. There was no response to static flexion of the forelimbs. Both testicles were descended into the scrotum.

An endoscopic examination of the upper airway was performed at rest. Laryngeal function was within normal limits (Grade 2/5 on the Lane scale).

This examination was performed for Jean Dubois and is only valid for examination findings on the 9th March 2022 and cannot predict changes after this date.

Kind Regards,

.....NSW V5551

Dr James Whitfeld BVSc
