VETERINARY EXAMINATION

Horse: Atheism

Location of Examination: Oak Ridge Farm, The Oaks, NSW

Date of examination: 1st June 2023

A veterinary examination of the 2yo brown thoroughbred gelding **Atheism** (described below) was carried out at Oak Ridge Farm, Silverdale Road, The Oaks, NSW on the 1st June 2023. At the time of the examination the gelding was in spelling, having last trialed on the 19th May 2023

Clinical Examination:

The horse was presented in good clinical health and in racing condition, with even muscle mass. On clinical examination the horse has acceptable conformation and temperament. Auscultation of the heart and lungs did not reveal any abnormalities. The horse was examined at the walk and trot in hand, with no lameness detected. Palpation and manipulation of the distal limbs did not reveal any signs of significant injury or abnormal wear. Flexion tests of all four limbs were all normal, with no pain or lameness detected post flexion test.

Endoscopic Examination:

An endoscopic examination of the upper respiratory tract was conducted at rest via both nostrils. The horse had normal Grade 2 (Lane) laryngeal movements, with good function and abduction, with no structural or functional abnormalities of the larynx, epiglottis, soft palate, or pharynx detected, and a clear trachea.

Disclosure:

I certify that I have no current nor contemplate any future interest in the above horse or the monies to be raised from the sale of the horse.

Yours faithfully,

Dr Ross Alexander BVSc
