VETERINARY REPORT

Horse: Rock On Rhianna 21

Owner: Bongiorno

The above yearling underwent endoscopy of the upper respiratory tract on farm.

Endoscopy of the upper respiratory tract at rest showed no signs of inflammation or infection. The arytenoid cartilages movement was a Lane Grade 1/5 and fully dilated and held on swallowing. On scoping today it would pass sale scoping requirements.

If you have further questions please call the hospital.

Sincerely,

Paddy Todhunter BVSc, MS, Diplomate ACVS
Specialist in Equine Surgery
