

**BAY
EQUINE**

Wednesday 9th July, 2025

Horse: Lion City Express (El Roca AUS/Diamond Lindauer NZ, 2yo bay gelding)

Microchip: 985125000132488

Place of Examination: Fitzsimmons Racing, Bendigo, VIC

On 9th July, 2025, I examined LION CITY EXPRESS at the request of his trainer, Tim Fitzsimmons, in Bendigo, Victoria.

An endoscopic examination of his upper respiratory tract at rest found all major structures to be within normal limits, with grade 1 laryngeal function observed (Havemeyer scale).

The gelding was also x-rayed, including views as prescribed by the HKJC and underwent a sonographic exam, which revealed all structures of the front limbs appearing within normal limits, including the suspensory branches and suspensory branch/sesamoid interface of the medial and lateral suspensory branches of both limbs.

Should you have any further questions, please don't hesitate to contact me on 0401 309 330.

Yours faithfully,

Dr. Joseph Waldron
