Dr. Emma Wood, BSc BVMS
Dr. Katrina Couttie BVSc
Consultant: Dr. Richard Selth BVSc MRCVS

Horse: Sognani, 5yo Bay mare
Trainer: M.D Moroney

Date: 6th September 2017

Veterinary Report

I examined the abovementioned mare on the morning of 6/9/17. She was found to be 2/5 lame in the near forelimb and positive to carpal flexion.

Radiographic examination of the left carpus revealed a small chip fracture from the distal radiocarpal bone, there was also osteoarthritic changes on the proximal and distal intermediate carpal bone and moderate 3rd carpal sclerosis.

The right carpus was not radiographed.

Regards,
